Education

Yonsei University — Seoul, South Korea
Integrated M.S./Ph.D. Program in Computer Science; GPA: 4.16/4.30 — *Mar 2025 – Present*

Soongsil University — Seoul, South Korea
B.S. in Computer Science · GPA: 3.84/4.30 — *Mar 2019 – Feb 2025*

San Francisco State University — San Francisco, CA, USA
Exchange Student — *Aug 2023 – Dec 2023*

Research Interests

Trustworthy AI · Confidence Calibration · Continual Learning · Parameter-Efficient Adaptation

Publications

MT-CC: Multi-Group Temperature Scaling for Asymmetric Calibration Behavior in Class-Incremental Learning
Sungjun Yun, Yonghee Choi, Dong-Jun Han
NeurIPS 2026 **(Spotlight)**

Disentangled Sparse Representations for Concept-Separated Diffusion Unlearning
Hyeonjin Kim, Hangyeol Jung, Heechan Yun, **Sungjun Yun**, Dong-Jun Han
NeurIPS 2026

Research Experience

Edge AI Lab, Yonsei University — Seoul, South Korea
Graduate Researcher, Full-time (Advisor: Prof. Dong-Jun Han) — *Mar 2025 – Present*

- Led the development of MT-CC, a multi-group temperature-scaling method addressing stage-dependent confidence distortions in class-incremental learning.
- Investigated sparse autoencoders (SAEs) to identify disentangled features and enable fine-grained concept control in diffusion models.
- Investigate how parameter-efficient fine-tuning affects confidence calibration in large language models (LLMs) under continual adaptation across tasks.

Reality Lab, Soongsil University — Seoul, South Korea
Undergraduate Research Intern — *Jun 2024 – Feb 2025*

- Proposed learnable field-of-view parameters for bird's-eye-view (BEV) transformations in cross-view geolocalization to reduce the domain gap between street-view and satellite imagery.

Teaching Experience

Teaching Assistant, Yonsei University

- Distributed Learning and Inference (CAS4401) — Fall 2025, Fall 2026
- AI Systems (CAS3400) — Spring 2025, Spring 2026

Honors & Awards

International Exchange Scholarship, Soongsil University — top performer in exchange program — Jul 2023

Academic Excellence Scholarship, Soongsil University — top 10% of class — Aug 2020

Skills

Programming: Python, C/C++

ML Frameworks: PyTorch, TensorFlow

Languages: Korean (Native), English (Professional Working Proficiency)
